Please read this guide carefully before use.

Voltage: 100V-120V, 60HZ
Polarized plug
Rated Power: 32W
Water tank volume: 0.6 Gal (2.2L)

IMPORTANT INSTRUCTIONS:

Thank you for choosing an Comfort Zone® humidifier. To ensure the best performance from your product, please read and save the following instructions.

WHEN USING ELECTRICAL APPLIANCES, BASIC PRECAUTIONS SHOULD ALWAYS BE FOLLOWED TO REDUCE THE RISK OF FIRE, ELECTRIC SHOCK AND INJURY TO PERSON, INCLUDING THE FOLLOWING:

- This humidifier is for indoor use only. Do not use in wet or damp locations such as bathrooms, laundry areas or other similar indoor locations. Never locate humidifier where it may fall into a bathtub or other water container.
- Avoid the use of an extension cord because the extension cord may overheat and cause risk of fire. However, if you must use an extension cord, the cord shall be No.14AWG minimum size and rated not less than 1875 watts.
- Do not run the cord under carpeting. Do not cover the cord with throw rugs, runners or the like. Arrange cord away from a traffic area so it will not be tripped over.
- Do not use this product if parts are missing. Do not use this unit if the power cord shows signs of damage or wear or if the unit has been dropped or misused.
- Use this unit on a flat, level surface only. If unit is placed on a non-level surface, this unit may not function properly or water may overflow from the water flume.
- **Place this humidifier on a water-resistant surface.**
- Be sure to turn off and unplug this unit when not in use or when cleaning or reinserting the aroma dispenser (if this feature is included in your model).
• Never tip or move this appliance while it is operating or while water is in the base or tank.
• This humidifier is not to be serviced or repaired by anyone except the manufacturer or service/repair facilities authorized by the manufacturer. Never disassemble your humidifier. Doing so will void your warranty and possibly allow water it get into sealed parts.
• Do not use this humidifier with timers, programmers or any other automatically controlled devices.
• Use this humidifier in the manner described in this operations manual only. Not following this manual may cause damage to the humidifier, may create a fire hazard, electrical shock, or injury to persons or property.
• Do not place this humidifier near furnaces, heaters, stoves, or any other source of heat.
• Position this humidifier out of the reach of children and pets.
• **This humidifier requires periodic maintenance.** Refer to those instructions in this manual.
• **DO NOT use anything other than water in this appliance. Do not use additives.**
• Turn off the humidifier if relative humidity exceeds 60%.
• Never block the mist outlet.
• Do not cover any part of this humidifier. Do not insert any object into any area of this humidifier.

**SET UP**
Remove the tank, turn the tank upside-down and remove the fill cap by turning counter-clockwise as shown on the tank. Fill the tank with cool water, for best results use distilled or filtered water. **Do not use hot water or additives.** Replace the water tank spring float cap by turning it clockwise; be sure not to over tighten. Turn the tank upright and position the tank back on the housing. Be sure the tank is seated properly in the housing. Water will begin to flow from the tank into the water basin on the unit body.

**OPERATION**
With the Power Control Knob in the OFF position, plug the humidifier into a polarized 120VAC outlet.
The best working environment for humidifier is between the temperatures of 41°F (5°C) and 104°F (40°C) and relative humidity is lower than 60%RH. Use the ON/OFF switch on the back of the unit to turn it on or off. Turn the Mist Control Dial on the front of the unit to adjust the mist output. The top of the tank has dual directional output orifices; simply turn the openings to the desired directions.
REFILLING THE TANK
When the tank is empty and the water reaches a minimum level in the tray, the unit will automatically shut down and stop producing moisture. The green power indicator light will turn to red color indicating that the tank is empty. Turn off and unplug the power cord. Remove water tank spring float cap, refill the tank with cool water, for best results, use distilled or filtered water. **Do not use hot water or chemical additives.** Properly replace the tank, plug into an outlet and turn the humidifier ON. Comfortable, soothing, visible cool mist will be produced immediately.

CLEANING THE HUMIDIFIER
It is strongly recommended you clean your humidifier at least once a week or more often if you
- Have hard water.
- Notice a buildup of impurities on or in the tray, etc.
- Notice an unpleasant odor.
Always turn off and unplug the humidifier before cleaning. Periodically wipe the outside of the humidifier with a damp or wet soft cloth. Do not use harsh, abrasive cleaners on this humidifier. Never submerse the housing in liquid or pour liquid in or on the housing. Doing so may damage the humidifier and cause injuries.

CLEANING THE TANK
Put 1/2 teaspoon of chlorine bleach and 1/2 gallon of water in the tank. Let solution set for about 20 minutes swishing every few minutes. Empty the tank and rinse well with water until the bleach odor is gone. Be careful not to splash the solution on surfaces/clothing that may get damaged by the cleaning solution. Do not operate the humidifier with the chlorine bleach solution in the tank.

CLEANING THE TRAY
From time to time mineral deposits will accumulate in and on the water basin. When this occurs, the water basin should be cleaned.

END OF SEASON CARE AND STORAGE
Empty the tank and tray of water. Clean all surfaces with a damp, soft cloth. When completely dry, store the humidifier in its original carton, in a cool, dry, clean location. Remember to clean and inspect your humidifier before using it the next season.

LIMITED WARRANTY
Products manufactured by Comfort Zone® are warranted to the original consumer to be free of defects in material and workmanship for twelve (12) months from the original date of purchase. The warranty does not cover products modified outside our factory, damage or failure caused by acts of God, abuse, misuse, abnormal usage, faulty installation, failure to follow suggested maintenance procedures enclosed with this product (as defined by Magnuson-Moss Warranty-Federal Trade Commission Improvement Act) This unit is guaranteed to the original retail purchaser against defects in quality or workmanship for a period of one year from the date of original purchase. If this unit fails because of a manufacturing defect within 30 days of purchase, return the unit, with your receipt, to the retailer. After 30 days, but within the warranty period, if the unit was purchased within the continental United States, return it, freight prepaid, to Comfort Zone® for repair or replacement. If the unit was purchased outside the continental United States, return the unit to the place of purchase. This warranty does not cover damage due to accidents, operation on other than 120 volts, 60 hertz, AC. current, or any other abuse. All implied warranties, including the warranties of merchantability and of fitness of purpose, if applicable, are hereby limited in duration to the period of one year from the date of original retail purchase. Some states do not allow limitations on how long an implied warranty lasts, so the above limitations may not apply to you. Incidental or consequential damages arising from a breach of either express or implied warranties are hereby disclaimed and excluded. Some states do not allow the exclusion of limitation of incidental or consequential damages, so this limitation or exclusion may not apply to you.

This warranty gives you specific legal rights, and you may also have other rights, which vary from state to state. No informal dispute settlement mechanisms are available. This limited warranty is given in lieu of all other warranties.
